

## **IMPORTANT INFORMATION ABOUT ZONE SCHEDULES**

This zone schedule is being made available pursuant to 15 CFR 400.44(e), which states: “The Board shall make copies of zone schedules available on its Web site.”

Availability of this zone schedule on the FTZ Board’s website does not imply that the FTZ Board has approved any rate/charge, policy or other content of this zone schedule. In particular, while the FTZ Board staff intends to conduct spot checks over time, zone schedules are not reviewed for compliance with the public utility requirement (19 U.S.C. 81n, 15 CFR 400.42) prior to making the zone schedules available via the Board’s website.

Pursuant to 15 CFR 400.44(b)(4), a grantee may not assess any specific rate or charge for which the amount – or formula for calculating the amount – does not appear in the zone schedule that the grantee has submitted to the FTZ Board.

Complaints about a grantee’s compliance with statutory and regulatory requirements related to public utility and uniform treatment – including rate or charge amounts/formulas, a grantee assessing a rate or charge amount/formula that does not appear in its zone schedule, and a grantee not affording uniform treatment under like conditions – may be presented to the FTZ Board under 15 CFR 400.45 (which also allows for complaints to be made on a confidential basis, if necessary).

Questions or concerns may be addressed to the FTZ Board staff at (202) 482-2862 or [ftz@trade.gov](mailto:ftz@trade.gov).

001      Definitions & Privileges of Foreign-Trade Zones

Under Section 400, Paragraph 101, Regulations governing the establishment, operations, maintenance, and administration of foreign-trade zones in the United States, the term "zone" means a "foreign-trade zone". A foreign-trade zone is a designated site licensed by the Foreign-Trade Zones (FTZ) Board at which special customs procedures may be used. These procedures allow domestic activity involving foreign items to take place prior to formal customs entry. Duty-free treatment is accorded items that are re-exported and duty payment is deferred on items sold in the U.S. market, thus offsetting customs advantages available to overseas producers who compete with producers located in the United States. Subzones are special-purpose zones, usually at manufacturing plants. A site which has been granted zone status may not be used for zone activity until the site has been separately approved for FTZ activation by local U.S. Customs and Border Protection (CBP) officials, and the zone activity remains under the supervision of CBP. FTZ sites and facilities remain within the jurisdiction of local, state or federal governments or agencies.

The FTZ Act authorizes the handling of merchandise brought into a zone as described below:

"Foreign and domestic merchandise of every description, except such as is prohibited by law, may, without being subject to the customs laws of the United States, except as otherwise provided in this chapter, be brought into a zone and may be stored, sold, exhibited, broken up, repacked, assembled, distributed, sorted, graded, cleaned, mixed with foreign or domestic merchandise, or otherwise manipulated, or be manufactured except as otherwise provided in this chapter, and be exported, destroyed, or sent into customs territory of the United States therefrom, in the original package or otherwise; but when foreign merchandise is so sent from a zone into customs territory of the United States it shall be subject to the laws and regulations of the United States affecting imported merchandise:

Provided, That whenever the privilege shall be requested and there has been no manipulation or manufacture effecting a change in tariff classification, the appropriate customs officer shall take under supervision any lot or part of a lot of foreign merchandise in a zone, cause it to be appraised and taxes determined and duties liquidated thereon.

Merchandise so taken under supervision may be stored, manipulated, or manufactured under the supervision and regulations prescribed by the Secretary of the Treasury, and whether mixed or manufactured with domestic merchandise or not may, under regulations prescribed by the Secretary of the Treasury, be exported or destroyed, or may be sent into customs

territory upon the payment of such liquidated duties and determined taxes thereon. If merchandise so taken under supervision has been manipulated or manufactured, such duties and taxes shall be payable on the quantity of such foreign merchandise used in the manipulation or manufacture of the entered article. Allowance shall be made for recoverable and irrecoverable waste; and if recoverable waste is sent into customs territory, it shall be dutiable and taxable in its condition and quantity and at its weight at the time of entry. Where two or more products result from the manipulation or manufacture of merchandise in a zone the liquidated duties and determined taxes shall be distributed to the several products in accordance with their relative value at the time of separation with due allowance for waste as provided for above:

Provided further, That subject to such regulations respecting identity and the safeguarding of the revenue as the Secretary of the Treasury may deem necessary, articles, the growth, product, or manufacture of the United States, on which all internal-revenue taxes have been paid, if subject thereto, and articles previously imported on which duty and/or tax has been paid, or which have been admitted free of duty and tax, may be taken into a zone from the customs territory of the United States, placed under the supervision of the appropriate customs officer, and whether or not they have been combined with or made part, while in such zone, of other articles, may be brought back thereto free of quotas, duty, or tax:

Provided further, That if in the opinion of the Secretary of the Treasury their identity has been lost, such articles not entitled to free entry by reason of noncompliance with the requirements made hereunder by the Secretary of the Treasury shall be treated when they reenter customs territory of the United States as foreign merchandise under the provisions of the tariff and internal-revenue laws in force at that time:

Provided further, That under the rules and regulations of the controlling Federal agencies, articles which have been taken into a zone from customs territory for the sole purpose of exportation, destruction (except destruction of distilled spirits, wines, and fermented malt liquors), or storage shall be considered to be exported for the purpose of –

(1) the draw-back, warehousing, and bonding, or any other provisions of the Tariff Act of 1930, as amended, and the regulations thereunder; and

liability for internal-revenue taxes and for the purposes of the internal-revenue laws generally and the regulations thereunder. Such a transfer may also be considered an exportation for the purposes of other Federal laws insofar as Federal agencies charged with the enforcement of those laws deem it advisable. Such articles may not be returned to customs territory for domestic consumption except where the Foreign-Trade Zones Board deems such return to be in the public interest, in which event the articles shall be subject to the provisions of paragraph 1615(f) of section 1201 of this title:

Provided further, That no operation involving any foreign or domestic merchandise brought into a zone which operation would be subject to any provision or provisions of section 1807, chapter 15, chapter 16, chapter 17, chapter 21, chapter 23, chapter 24, chapter 25, chapter 26, or chapter 32 of the Internal Revenue Code if performed in customs territory, or involving the manufacture of any article provided for in paragraphs 367 or 368 of section 1001 of this title, shall be permitted in a zone except those operations (other than rectification of distilled spirits and wines, or the manufacture or production of alcoholic products unfit for beverage purposes) which were permissible under this chapter prior to July 1, 1949:

Provided further, That articles produced or manufactured in a zone and exported therefrom shall on subsequent importation into the customs territory of the United States be subject to the import laws applicable to like articles manufactured in a foreign country, except that articles produced or manufactured in a zone exclusively with the use of domestic merchandise, the identity of which has been maintained in accordance with the second proviso of this section may, on such importation, be entered as American goods returned:

Provided, further, That no merchandise that consists of goods subject to NAFTA drawback, as defined in section 3333(a) of this title, that is manufactured or otherwise changed in condition shall be exported to a NAFTA country, as defined in section 3301(4) of this title, without an assessment of a duty on the merchandise in its condition and quantity, and at its weight, at the time of its exportation (or if the privilege in the first proviso to this subsection was requested, an assessment of a duty on the merchandise in its condition and quantity, and at its weight, at the time of its admission into the zone) and the payment of the assessed duty before the 61st day after the date of exportation of the article, except that upon the presentation, before such 61st day, of satisfactory evidence of the amount of any customs duties paid or owed to the NAFTA country on the article, the customs duty may be waived or reduced (subject to section 508(b)(2)(B) of the Tariff Act of 1930 (19 U.S.C. 1508(b)(2)(B)))

**Admission To Zone** - The physical arrival of goods into a Zone in a specified Zone status with the appropriate approvals of the Zone Grantee and the U.S. Customs and Border Protection. The term “admission” is used instead of “entry” to avoid confusion with Customs entry processes under Parts 141-144 of the Customs Regulations.

**Audit-Inspection Procedures** – Procedures that are designed to meet the requirements of the U.S. Customs and Border Protection Regulations (T.D. 86-16) for Audit-Inspection Procedures in Foreign-Trade Zones. Under the Regulations, the Operator maintains the inventory records. U.S. Customs and Border Protection is relieved of the duty of actually keeping the records, but maintains assurance of the systems accuracy by selective examinations of merchandise, and spot checks and audits of Zone facilities.

which generally cannot be counted or identified piece by piece.

**Constructive Transfer** - A legal fiction that permits acceptance of a Customs entry for merchandise in a [foreign-trade] zone before its physical transfer to the Customs territory. If the entry is thereafter rejected or cancelled, the merchandise will be considered at that time to be constructively transferred back into the zone in its previous zone status.

**Control Number/Admission Number** – see Zone Control Number/Admission Number.

**Customs Form 214** - Application and permit to admit merchandise into a Foreign-Trade Zone, permit to transfer merchandise through the Customs territory to Zone and Customs officer's return thereon, and Customs report of merchandise received at Zone.

**Customs Form 216** - Application and permit for the manipulation, manufacture, exhibition or destruction of merchandise within a Foreign-Trade Zone and Customs officer's return.

**Customs Territory** - The territory of the U.S. in which the general tariff laws of the U.S. apply. "Customs territory of the United States" includes only the States, the District of Columbia, and Puerto Rico.

For purposes of marking and labeling, domestic exports include (i) the product of manipulation or manufacture in the Zone in which only domestic merchandise is used, (ii) the product of manipulation or manufacture in the Zone in which there is a mixture of foreign and domestic merchandise which results in a change in form or nature of the commodities, and in which the domestic merchandise consists of a component part of parts or a substantial portion of the finished product, and (iii) foreign merchandise which by manipulation or manufacture in the Zone has been so changed in form and nature or enhanced in value that the product is deemed to be one of domestic manufacture.

**Domestic Status Merchandise (D)** - Merchandise that has been (i) grown, produced or manufactured in the U.S. and not exported therefrom, (ii) previously entered into the commerce of the United States as duty and tax free, or (iii) previously imported into Customs territory and properly released from Customs custody. This means imported merchandise on which all necessary duties and taxes, if applicable, have been paid, and upon which no drawback has been claimed, is considered domestic merchandise when admitted to a foreign-trade zone. No application or permit is required for the manipulation, manufacture, exhibition, destruction, or transfer to Customs territory of domestic status merchandise (including packing and repair materials) except when it is mixed or combined with merchandise in another zone status or upon order of the Commissioner of Customs. All domestic status merchandise in a zone must be accounted for under the procedures of 19 CFR Part 146 Subpart B.

**Executive Director** – The Executive Director of the Authority.

**Exhibition** - Upon application pursuant to section 19 CFR 146.52 and approval by the port director of Customs, the showing of merchandise in the zone is permitted. This application and approval may be submitted and obtained on a case by case basis or blanket basis.

**Foreign Exports** - Foreign exports (re-exports) are commodities of foreign origin which have entered the United States for consumption or into Customs bonded warehouses or U.S. Foreign Trade Zones, and which are in substantially the same condition as when imported.

**Foreign Status Merchandise** - Imported merchandise, which has not been released from Customs custody into the Customs territory of the United States. This means imported merchandise upon which duty and taxes, if applicable, have not been collected.

**Foreign-Trade Zone Forms** - Forms used in the transaction of Foreign-Trade Zone business are designated by the U.S. Customs & Border Protection. As such, these forms may be completed by the Zone User (person of record), its duly assigned Customs Broker, or the Operator. The Foreign-Trade Zone forms utilized by FTZ #51 are as follows:

Customs Form 216 - Application for Foreign-Trade Zone Activity Permit

**Fungible Merchandise** - Merchandise that for commercial purposes is identical and interchangeable in all situations. In an FTZ, fungible merchandise may be identified by an inventory method authorized by Customs, which is consistently applied, such as First-In-First-Out (FIFO) and using a unique identifier.

**General-Purpose Zone** - A multi-use zone designed for use by multiple Users engaged in multiple activities that may include storage, distribution, testing, repackaging and repair. Manufacturing may take place in a general-purpose zone with prior permission by the Foreign-Trade Zones Board.

**Grantee** - A Grantee is a public or private corporation to which the privilege of establishing, operating, or maintaining a foreign-trade zone has been given. The privileges of establishing, operating, and maintaining Foreign-Trade Zone #51 have been granted to the Seaway Port Authority of Duluth.

**Imports** - Foreign merchandise of every description (except articles specifically and absolutely prohibited by statute) entered into the Customs territory to become a part of the domestic supply for the purpose of domestic commerce or consumption, and particularly that which is entered into the Customs territory through the zone. A distinction is made between such imports into the commerce of the United States and foreign merchandise which, under the laws and regulations of various other Federal agencies having jurisdiction within the zones, is said to be "imported" into foreign-trade zones, Customs bonded warehouses, or Customs custody. This latter merchandise, in relation to operations of the zones, is considered to be foreign merchandise until its entry into the Commerce of the United States.

**In-bond** - A Customs program that provides for transporting cargo (other than explosives and merchandise, the importation of which is prohibited) via bonded carrier from one port to another under a Customs bond.

Imported merchandise, including that imported in mail shipments, being transported to and from foreign-trade zones through the Customs territory must be transported in bond under the provisions of 19 CFR Parts 18, 112, and 125. (19 CFR 146.11 and 144.37(g)). Domestic goods transported to a zone or goods removed from a zone comprised wholly of domestic status products need not be transported in bond.

**In-Transit Merchandise** - The term "in-transit merchandise" includes all foreign merchandise transported into and out of the United States, whether in and out of the same port or across the country to another port, with or without transshipment, warehousing, breaking bulk, or change in mode of transportation, which originated in one foreign country and is destined at the time of the original shipment to another foreign country.

Its distinctive feature is that it is being transported from one foreign country through the United States to another foreign country under a through bill of lading or other documentation for a completed journey. The term is particularly applied to foreign merchandise shipped in-transit through a foreign-trade zone.

**Inventory Control System** - A system of inventory control, manual or automated, based on records maintained by a Operator or User rather than by the U.S. Customs & Border Protection. An operator shall maintain the inventory control and recordkeeping system of the zone in accordance with the provisions of 19 CFR Part 146. An operator shall maintain either manual or automated inventory control and recordkeeping systems or a combination of manual and automated systems.

**Lease** - A document or agreement entered into between the Operator and User for assignment of space within Foreign-Trade Zone No. 51.

**Manipulation** - As defined in Section 562 of the Tariff Act, processing wherein merchandise is packed, unpacked, repacked, cleaned, sorted, graded or otherwise changed in condition. The precise distinction between manipulation and manufacturing is subject to interpretation and enjoys a long history of case law.

**Manufacturing** - As defined by the Foreign-Trade Zones Board Regulations, manufacturing means activity involving the substantial transformation of a foreign article resulting in a new and different article having a different name, character, and use. U.S. Customs & Border Protection determines what constitutes manufacturing on a case-by-case basis, distinguishing it from other operations such as manipulation, processing, production, and blending. The Foreign-Trade Zones Board definition is much broader and the agency requires that specific prior authorization be obtained for manufacturing operations in the activated zone.

**Measurement Ton** - Ton based on a measurement of 40 cubic feet.

**Metric Ton** - 1,000 kilograms or approximately 2204.62 avoirdupois pounds.

**Non-Privileged Foreign Status Merchandise (NPF)** – Foreign merchandise subject to tariff classification according to its character, condition and quantity as constructively transferred to Customs territory at the time the entry or entry summary is filed with U.S. Customs & Border Protection. In other words, a status of merchandise for tariff purposes that provides for classification and appraisalment in accordance with the condition of merchandise when constructively transferred to the Customs territory of the United States. In a zone, NPF merchandise may be changed to Privileged Foreign (PF) before any processing has occurred, at the option of the zone user and with approval by Customs. Waste recovered from any manipulation or manufacture of PF or NPF merchandise in a zone has NPF status. NPF status is usually selected when the duty rate of the finished product is lower than the duty rate of the imported foreign components in a manufacturing environment. Domestic merchandise in a zone which by reason of noncompliance with the Customs Regulations has lost its identity as domestic status merchandise will be treated as non-privileged foreign merchandise.

**Open or Yard Storage** - The keeping of merchandise not requiring weather protection on open space within the fenced area of the Foreign-Trade Zone.

**Operator** – An Operator is a person or public or private entity that operates a zone under the terms of an agreement with the Grantee with permission from U.S. Customs & Border Protection.

**Person Of Record** - The person, firm or corporation in whose name the Application to Admit Merchandise into the zone (CBPF-214) is made, recognized by the Zone Grantee, Operator and the U.S. Customs & Border Protection as having legal right to make the application. Evidence of this right of the applicant is the same as would be required to establish the right to apply for release of the merchandise from Customs custody at the end of its transit through the Customs territory. Such evidence usually consists of an original bill of lading in the name of the applicant, an original bill of lading endorsed to him or a carrier's certificate, or a copy of Power of Attorney when parties other than the owner are conducting business, such as a customs broker, company or corporate official, etc.

**Port Director of Customs** - The Port Director of U.S. Customs & Border Protection, Duluth, Minnesota.

005 Definition of Terms

**Privileged Foreign Merchandise (PF)** - Foreign Merchandise subject to tariff classification according to its character, condition and quantity at the rate of duty and tax in force on the date of filing the CBPF 214. In other words, a status that, upon proper application and approval anytime preceding manufacture or manipulation within a zone, is granted to an imported input, allowing the zone user the privilege of treating the input, for tariff purposes, as remaining in its original condition at the time of admission to the zone. Once established, Privileged Foreign Status cannot be changed except in the case of recoverable waste (see 19 CFR § 146.42). If merchandise has already been admitted into the zone in Non-Privileged Foreign Status, Privileged Foreign Status may be obtained by filing a CBPF 214. Application for this status, however, must be filed prior to manipulation or manufacture.

Admitted merchandise subject to AD/CVD (antidumping or countervailing duties) must be placed in PF status. Merchandise in PF status or composed in part of PF status may not be entered for warehousing from a zone and cannot be placed on a TIB upon removal from the zone. Classification of merchandise subject to a tariff-rate import quota will be made only at the higher non-quota duty rate in effect on the date PF status was granted. Mandatory PF status may be imposed by the FTZ Board as a form to grant restriction to prevent the inverted tariff benefit.

**Quantity** - The numerical count of the units composing a shipment of a commodity except bulk commodities which must be measured by weight, size or gallonage.

**Re-exports or Re-shipments** - Merchandise from one foreign country initially destined to the United States which, after being unladen, stored and/or manipulated or manufactured in this country, is transported under a new bill of lading or other new documentation to another foreign country. The term is particularly applied to re-exports or reshipments through a Foreign-Trade Zone.

It includes privileged, non-privileged, or zone restricted foreign merchandise which: (1) is in the same condition as when transported into the United States, or (2) has been manipulated without any change in its form or nature, or (3) has been manipulated or processed in such manner as to change its form, whether or not mixed with domestic merchandise, provided the domestic merchandise is not a component part or substantial ingredient thereof. Generally, it includes all merchandise of foreign origin, which has not been so manipulated or manufactured as to be deemed a product of the United States, and which has not been released from Customs custody into the Customs territory.

exportation, destruction (except destruction of distilled spirits, wines, and fermented malt liquors), or storage may be given zone-restricted status on proper application. ZR status can be requested at any time that the merchandise is located in the zone but cannot be abandoned once granted. Merchandise in zone-restricted status may not be removed to Customs territory for domestic consumption except where the FTZ Board determines the return to be in the public interest.

Merchandise may be considered exported, for Customs or other purposes (i.e., for drawback purposes or to close out a TIB), upon its admission to a zone in zone-restricted status. No-tax paid alcoholic beverages and tobacco products can be admitted to a zone only in ZR status. Merchandise entered into a bonded warehouse for storage and transferred to a zone (other than temporarily for manipulation and returned to Customs territory as provided for in § 146.33) will have ZR status when admitted into the zone. Merchandise that has been placed in a bonded warehouse for a purpose other than entry for warehouse (such as general order or under seizure) may be admitted to a zone in any eligible status.

**Zone Site** – the physical location of a zone or Subzone.

The Zone is established under the authority granted to Port Authorities by the State of Minnesota, Minnesota Statutes Section 469.057, subdivision 14. Under the provisions of that legislation, the agency may assume the operating and management responsibility of the Foreign-Trade Zone and the responsibility for providing continuing staff assistance.
