

IMPORTANT INFORMATION ABOUT ZONE SCHEDULES

This zone schedule is being made available pursuant to 15 CFR 400.44(e), which states: “The Board shall make copies of zone schedules available on its Web site.”

Availability of this zone schedule on the FTZ Board’s website does not imply that the FTZ Board has approved any rate/charge, policy or other content of this zone schedule. In particular, while the FTZ Board staff intends to conduct spot checks over time, zone schedules are not reviewed for compliance with the public utility requirement (19 U.S.C. 81n, 15 CFR 400.42) prior to making the zone schedules available via the Board’s website.

Pursuant to 15 CFR 400.44(b)(4), a grantee may not assess any specific rate or charge for which the amount – or formula for calculating the amount – does not appear in the zone schedule that the grantee has submitted to the FTZ Board.

Complaints about a grantee’s compliance with statutory and regulatory requirements related to public utility and uniform treatment – including rate or charge amounts/formulas, a grantee assessing a rate or charge amount/formula that does not appear in its zone schedule, and a grantee not affording uniform treatment under like conditions – may be presented to the FTZ Board under 15 CFR 400.45 (which also allows for complaints to be made on a confidential basis, if necessary).

Questions or concerns may be addressed to the FTZ Board staff at (202) 482-2862 or ftz@trade.gov.

ARTICLE I
SCOPE OF FOREIGN-TRADE ZONES

Sec. 400.1 Scope.

The scope of Foreign Trade Zones is set forth in 15 C.F.R. 400.1, stating as follows:

“(a) This part sets forth the regulations, including the rules of practice and procedure, of the Foreign-Trade Zones Board with regard to foreign-trade zones in the United States pursuant to the Foreign-Trade Zones Act of 1934, as amended (19 U.S.C. 81a-81u). It includes the substantive and procedural rules for the authorization of zones and the regulation of zone activity. The purpose of zones as stated in the Act is to “expedite and encourage foreign commerce, and other purposes.” The regulations provide the legal framework for accomplishing this purpose in the context of evolving U.S. economic and trade policy, and economic factors relating to international competition.

(b) Part 146 of the customs regulations (19 C.F.R. part 146) governs zone operations, including the admission of merchandise into zones, zone activity involving such merchandise, and the transfer of merchandise from zones.

(c) To the extent zones are "activated" under U. S. Customs and Border Protection (CBP) procedures in 19 C.F.R. part 146, and only for the purposes specified in the Act (19 U.S.C. 81c), zones are treated for purposes of the tariff laws and Customs entry procedures as being outside the Customs territory of the United States. Under zone procedures, foreign and domestic merchandise may be admitted into zones for operations such as storage, exhibition, assembly, manufacture and processing, without being subject to formal Customs entry procedures and payment of duties, unless and until the foreign merchandise enters Customs territory for domestic consumption.

At that time, the importer ordinarily has a choice of paying duties either at the rate applicable to the foreign material in its condition as admitted into a zone, or if used in production activity, to the emerging product. Quota restrictions do not normally apply to foreign goods in zones. The Board can deny or limit the use of zone procedures in specific cases on public interest grounds. Merchandise moved into zones for export (zone-restricted status) may be considered exported for purposes such as federal excise tax rebates and Customs drawback. Foreign merchandise (tangible personal property) admitted to a zone and domestic merchandise held in a zone for exportation are exempt from certain state and local ad valorem taxes (19 U.S.C. 81o(e)). Articles admitted into zones for purposes not specified in the Act shall be subject to the tariff laws and regular entry procedures, including the payment of applicable duties, taxes, and fees. ARTICLE III OPERATIONS IN ZONE

The merchandise and operations permitted in a Zone, the disposition of merchandise in a Zone, the Zone status of the merchandise and special provisions applicable to each status, the subsequent importation of merchandise exported from a Zone, and other operations in a Zone authorized by the Act, are hereinafter in this Section generally described. Sample Zone forms required are available upon request from the Zone Operator.

3.01 MERCHANDISE PERMITTED IN A ZONE

Foreign and domestic merchandise of every description, except such as is prohibited by law, may without being subject to the Customs laws of the United States, except as otherwise provided in the Act and the regulations made thereunder, be brought into a Zone.

- (a) Merchandise of every description may be admitted into a zone unless prohibited by law. A distinction is made between prohibited and conditionally admissible merchandise.
- (b) Prohibited merchandise. Port directors shall not admit prohibited merchandise. If there is a question as to whether the merchandise may be prohibited, port directors may permit the temporary deposit of the merchandise in a zone pending a final determination of its status. Any prohibited merchandise which is found within a zone will be disposed of in the manner provided for in the laws and regulations applicable to that merchandise.
- (c) Conditionally admissible merchandise. The admission of this merchandise into a zone is subject to the regulations of the federal agency concerned.

3.02 DISPOSITION OF MERCHANDISE IN A ZONE

In general, merchandise lawfully brought into a Zone may, in accordance with these and other regulations made under the provisions of the Act be exported, destroyed, or sent into Customs territory of the United States therefrom, in the original package or otherwise; but when foreign merchandise, and domestic merchandise whose identity has been lost, is so sent from a Zone into Customs territory of the United States it shall be subject to the laws and regulations of the United States affecting imported merchandise.

- (a) Permission for any manipulation, manufacture, or exhibition in a Zone shall be obtained from the Director, as the representative of the Board, subject to such application and procedure prescribed by the Secretary of the Treasury for the protection of the revenue.
- (b) In the event of the denial of any application by the Director for any reason, the applicant, the Grantee, or the Zone Operator may appeal the adverse ruling to the Board. If any revenue protection considerations are involved in such an application, the Board shall be guided by the determinations of the Secretary of the Treasury with respect to them.

3.04 STATUS OF MERCHANDISE IN A ZONE

- (a) For the purpose of the Act and the regulations of this Section, all merchandise within a Zone, except merchandise in transit through a Zone as provided in the Customs regulations, and except merchandise temporarily transferred to a Zone for manipulation as provided in paragraph (b) of this Section, shall be given a Zone status as--
 - (1) privileged foreign merchandise
 - (2) domestic merchandise

- (b) Imported merchandise which has been entered and which has remained in continuous Customs custody may be temporarily transferred to a Zone for manipulation under Customs supervision pursuant to Section 562, Schedule Act of 1930, as amended, and for return to Customs territory. Any such merchandise shall not be considered within the purview of the Foreign-Trade Zones Act, but shall be treated in all respects as though remaining in Customs territory. The water area, docking facilities, and loading or unloading stations of a Zone are intended primarily for the use of vessels, vehicles, or aircraft unloading merchandise into the Zone or lading merchandise from the Zone, and their use for other purposes may be terminated by the Secretary of the Treasury if found to endanger the revenue, or by the Board if found to interfere with the primary uses of the Zone.

3.06 SUBSEQUENT IMPORTATION OF ZONE MERCHANDISE

Articles produced or manufactured in a Zone and exported therefrom shall, on subsequent importation into the Customs territory of the United States, be subject to the import laws applicable to like articles manufactured in a foreign country, except that articles produced or manufactured in a Zone exclusively with the use of domestic merchandise, the identity of which has been maintained in accordance with the Second Proviso of Section 3 of the Act, as amended, may, on such importation, be entered as American goods returned.

3.07 EXCLUSION FROM ZONE OF GOODS OR PROCESS OF TREATMENT

15 C.F.R. § 400.5 is entitled: "Authority to restrict or prohibit certain zone operations." It states as follows:

"The Board may conduct a proceeding, or the Executive Secretary a review, to consider a restriction or prohibition on zone activity. Such proceeding or review may be either self-initiated or in response to a complaint made to the Board by a person directly affected by the activity in question and showing good cause. After a proceeding or review, the Board may restrict or prohibit any admission of merchandise or process of treatment in an activated FTZ site when it determines that such activity is detrimental to the public interest, health or safety."
