

## **IMPORTANT INFORMATION ABOUT ZONE SCHEDULES**

This zone schedule is being made available pursuant to 15 CFR 400.44(e), which states: “The Board shall make copies of zone schedules available on its Web site.”

Availability of this zone schedule on the FTZ Board’s website does not imply that the FTZ Board has approved any rate/charge, policy or other content of this zone schedule. In particular, while the FTZ Board staff intends to conduct spot checks over time, zone schedules are not reviewed for compliance with the public utility requirement (19 U.S.C. 81n, 15 CFR 400.42) prior to making the zone schedules available via the Board’s website.

Pursuant to 15 CFR 400.44(b)(4), a grantee may not assess any specific rate or charge for which the amount – or formula for calculating the amount – does not appear in the zone schedule that the grantee has submitted to the FTZ Board.

Complaints about a grantee’s compliance with statutory and regulatory requirements related to public utility and uniform treatment – including rate or charge amounts/formulas, a grantee assessing a rate or charge amount/formula that does not appear in its zone schedule, and a grantee not affording uniform treatment under like conditions – may be presented to the FTZ Board under 15 CFR 400.45 (which also allows for complaints to be made on a confidential basis, if necessary).

Questions or concerns may be addressed to the FTZ Board staff at (202) 482-2862 or [ftz@trade.gov](mailto:ftz@trade.gov).

Any merchandise so prohibited by law that is found within a Zone shall be disposed of in the manner provided for in laws and regulations applicable to such merchandise. A distinction is made between (i) Merchandise which is specifically and absolutely prohibited by law on the grounds of policy and morals, such as immoral or subversive literature, obscene articles, or lottery matter and (ii) Merchandise which is subject to conditional prohibition only, for example, articles which are subject to permits or licenses for the protection of economic or national security or which may be reconditioned to bring them into compliance with the laws administered by various Federal Agencies. Port Directors of Customs are required to exclude the first class of articles and may not permit them to be transferred to a Zone if they are aware of their prohibited status except that the Port Director may permit the temporary deposit of any such merchandise in the Zone pending final determination of its status. The transfer of articles of the second class to a Zone is subject to any requirements of the Federal agency concerned. **RETAIL TRADE WITHIN A ZONE**

No retail trade shall be conducted within activated Zone space except under permits issued by the Grantee and approved by the Board. Only domestic, duty-paid, and duty-free goods may be sold in such cases. In considering whether to approve requests under this section, the Board shall consider the economic impact on the retail trade outside the Zone in the port of entry area. No approval is required for sales involving domestic or duty-paid food products sold within the Zone or Subzone to be consumed on the premises by persons working therein. Grantees shall revoke permits when there is a violation of this restriction. Operators and Users shall not do or permit anything to be done in or about the Zone nor bring or keep anything in the Zone which will in any way increase the existing rate of or effect any fire or other insurance upon the building or any of its contents, or cause cancellation of any insurance policy covering any Zone building or any part thereof or any of its contents. Insurance on commodities or other property stored on the leased premises, if desired, must be carried by and at the expense of the Operator, User, or owner of the commodities or other properties. Merchandise stored, manipulated, or transferred within the Zone is not insured by the Grantee. The Zone Schedule rates do not include insurance on merchandise.

### **INDEMNIFICATION**

Each Operator shall indemnify and hold harmless the Grantee from and against any and all loss, cost (including attorney's fees), damages, expense, and liability (including statutory liability and liability under Workman's Compensation Laws) in connection with claims for damages as a result of injury or death of any person or persons or property damages to any property sustained by Operator, User and/or all other persons which arise from or in any manner grow out of any act or neglect on or about the Zone by Operator, Operator's partners, agents, employees, customers, invitees, contractor, or subcontractors. Employees and other persons shall be subject to such examination upon entering and leaving the Zone area as the Operator or Grantee may deem necessary for the protection of the revenue and security of the Zone.

**REGULATIONS APPLICABLE AT SUBZONES**

Manufacturing or processing activities within the General-Purpose Zone may only be conducted with the prior approval of such activity by the Foreign-Trade Zones Board. "Subzones" are special-purpose ancillary Zone sites authorized by the Board through Grantees of public Zones for operations by individual firms that cannot be accommodated within an existing Zone when it can be demonstrated that the activity, usually manufacturing, will result in significant public benefits. They are considered noncontiguous extensions of Zones for single users, usually at their own facilities, and in this sense, are private rather than public Zone facilities. Separate Zone sites within an industrial or commercial complex subject to common management and covenants may be considered contiguous, and thus a part of the general purpose Zone, rather than as Subzones.

In reviewing proposals for Subzones the Foreign-Trade Zones Board, the Grantee will, in addition to the economic factors for public Zones consider:

- (1) Whether the operation can be accommodated in the public Zone serving the area;
- (2) Whether efforts have been made to accommodate the operation, such as enlarging the public Zone area, the cost of locating in a public Zone not being a determining factor;
- (3) Whether convincing evidence has been presented as to a resulting significant public benefit, including export development and displacement or substitution of imports, usually measured in terms of new or sustained employment.

All persons and entities doing business within a Subzone established by the Grantee must comply with the provisions of the Foreign-Trade Zones Act; with the rules, regulations, and procedures

of the Foreign-Trade Zones Board; with such laws and regulations of the United States, the operators, occupants, their employees, and invitees, and operators of Subzones; and with such of the provisions of this Schedule and subsequent issues and modifications thereof as may be applicable to the operations conducted in the Subzone.

All persons and entities who request the Grantee to apply for authority to conduct manufacturing or processing activities under Zone procedures, authority to alter the boundaries of the Zone, or establish a Subzone must first enter into an agreement with the Grantee concerning proposed Zone or Subzone operations. This agreement will contain provisions including, but not limited to, those relating costs incident to the preparation of the applications and any subsequent amendments or modification thereof; costs incident to public hearings and legal proceedings; charges for providing required Customs services; Startup and Activation and User Fees; and charges for special services not provided in this Schedule. Applicants for the establishment of a Subzone will bear application costs and charges resulting to preparing and filing of application whether or not the Foreign-Trade Zones Board favorably acts upon the application.

## **REGULATIONS PERTAINING TO MERCHANDISE**

In the event that the consignee or his agent is not immediately available for inspections, Zone personnel are authorized to open such packages for U.S. Customs and Border Protection and shall not be liable for any loss or damage to the goods for any reason.

### **INVENTORY PROCEDURES**

Zone Operators are responsible for establishing and maintaining an Audit Inspection Inventory Control System acceptable to U.S. Customs and Border Protection, and the Grantee for all merchandise in their care, custody, and control. The Grantee's designated Zone Project Administrator will monitor records, and may conduct periodic selective inventories of merchandise.

**PERMIT TO MANIPULATE, MANUFACTURE, PROCESS AND EXHIBIT**

Before merchandise may be manufactured, processed, manipulated, or exhibited within the Zone, application must be presented to the Port Director of Customs for approval. The Port Director of Customs must submit requests for manufacturing or processing authority to the Foreign-Trade Zones Board and final approval prior to approval of individual applications for manufacturing or processing. On approval by appropriate agencies, the contemplated operation will be permitted (Reference: Page No. 20) Manipulation, Manufacture, and Exhibition of Merchandise).

Merchandise transiting the Zone under the provision of CR 146.14 must leave the Zone within five (5) working days after arrival. Working days do not include Saturday, Sunday or Holidays. **MARKING**

All merchandise handled in the Zone, before entry to Customs territory, must be truly marked in accordance with Customs regulations as to the country of origin and in accordance with all other government regulations, and no merchandise will be permitted to leave the Zone for any purpose that carries any false or misleading label or mark. When repacked or labeled in the Zone, the goods should, when possible, be marked to indicate that fact.

**PROHIBITED MERCHANDISE**

A list of merchandise specifically prohibited from admission to the Zone is available upon request to the grantee's designated Zone Project Administrator.

**PUBLIC WAREHOUSE OPERATING REQUIREMENTS**

Private firms may enter into an Operator agreement with the Grantee to offer public warehousing facilities and services within the Zone. The warehouse firm will be required to comply with the Foreign-Trade Zone No. 134 public warehouse minimum standards as established by the Grantee.

**UNIFORM PROCEDURES REGARDING CONSTRUCTION OF BUILDINGS AND FACILITIES**

Foreign-Trade Zones Board pursuant to Board Order No. 339, issued on January 30, 1987. **FOREIGN-TRADE ZONE:**

A Foreign-Trade Zone is a restricted access site, in or adjacent to a Customs port of entry, operated under public utility principles under the sponsorship of a corporation granted authority by the Foreign-Trade Zones Board. U.S. Foreign-Trade Zones are restricted areas, under supervision of U.S. Customs and Border Protection, in which, when activated under Zone procedures, merchandise is treated for Customs and taxation purposes as if it is outside the Customs territory of the United States. Foreign-Trade Zones are the U. S. version of what are generally known internationally as Customs free trade zones; however, U.S. Foreign-Trade Zones are different in several important respects from other types of free trade zones. Located in or near U. S. Customs Ports of Entry, Zones are operated under public utility principles by qualified corporations. Authority for establishing these facilities is granted by the Foreign-Trade Zones Board under the Act and regulations. The term "Foreign-Trade Zone" typically refers to a Zone environment known as a "General Purpose Zone." The General Purpose Zone is established to accommodate various Zone activities carried on by multiple users. Storage, distribution, testing, repair, and repackaging are typical of activities carried on within a General Purpose Zone. Manufacturing or processing activity within a General Purpose Zone requires prior approval by the Foreign-Trade Zones Board. "Foreign-Trade Zone" might, as a general term, include special purpose Subzones. If the Zone is designed to serve a special type of activity, the term "Subzone" may be used. Like the General Purpose Zone, Subzones are established under the sponsorship of a corporation granted authority by the Foreign-Trade Zones Board. (See "Grantee".) When a Zone consists of more than one site under the same Grantee, the sites shall be considered part of the same Zone project. Foreign and domestic merchandise may be moved into Zones for operations not otherwise prohibited by law involving storage, exhibition, assembly, manufacture or other processing. The usual formal Customs entry procedures and payment of duties is not required on the foreign merchandise unless and until it enters Customs territory for domestic consumption, in which case the importer generally has a choice of paying the duty rate which applies to either the original foreign material or to the finished product. Quota restrictions do not normally apply to foreign goods in Zones, except that special procedures may apply when

manufacturing is involved. Domestic goods moved into a Zone for export may, at the request of the exporter, be considered exported upon admission to the Zone for purposes of excise tax rebates and drawback.

**GRANTEE:**

**HOLIDAYS:**

**IMPORTS:**

Foreign merchandise of every description (except articles specifically and absolutely prohibited by statute) entered into Customs territory to become a part of the domestic supply for the purpose of domestic commerce or consumption, and particularly that which is entered into Customs territory through the Zone and foreign merchandise which, under the laws and regulations of various other Federal agencies having jurisdiction within the Zone, is said to be "imported" into Foreign Trade Zones, Customs Bonded warehouse, or Customs custody. This latter merchandise, in relation to operations of the Zone, is considered to be foreign merchandise until its entry into the commerce of the United States.

**IN-TRANSIT MERCHANDISE:** The term "in-transit merchandise" includes all foreign merchandise transported into and out of the United States, whether in and out of the same port or across the country to another port, with or without transshipment, warehousing, breaking bulk, or change in mode of transportation, which originated in one foreign country and is destined at the same time of the original shipment to another foreign country. Its distinctive feature is that it is being transported from one foreign country through the United States to another foreign country, under a bill of lading or other documentation or a completed journey. The term is particularly applied to foreign merchandise shipped in-transit through a Foreign-Trade Zone.

**MANIPULATION:**

Means breaking up, repacking, assembling, distributing, sorting or grading, cleaning mixing with foreign or domestic merchandise, or other processing which does not constitute a manufacture.

- (2) Waste recovered from any manipulation or manufacture of privileged foreign merchandise, or;

The term is particularly applied to re-exports or re-shipments through a Foreign-Trade Zone.

It includes privileged, non-privileged, or zone-restricted foreign merchandise which:

- (1) is in the same condition as when transported into the United States, or;
- (2) has been manipulated without any change in its form or nature, or;
- (3) has been manipulated or processed in such a manner as to change its form, whether or not mixed with domestic merchandise, provided the domestic merchandise is not a component part or substantial ingredient thereof.

Generally, it includes all merchandise of foreign origin, which has not been so manipulated or manufactured as to be deemed a product of the United States, and which has not been released from Customs custody into Customs territory.

**SECRETARY:**

**STORAGE:**

The keeping of merchandise in or upon the premises within the Foreign-Trade Zone. Covered storage means keeping within a covered and enclosed structure affording weather protection. The term "storage", with or without designation, ordinarily implies covered storage.

**SUBZONES:**

Special-purpose ancillary Zone sites authorized by the Board through Grantees of public Zones for operations by individual firms that cannot be accommodated within an existing Zone, when it can be demonstrated that the activity, usually manufacturing, will result in a significant public benefit. Subzones are considered noncontiguous extensions of Zones for single users, usually at their own facilities and, in this sense, are private rather than public Zone facilities. Separate Zone sites within an industrial or commercial complex subject to common management and covenants may be considered as contiguous, and thus a part of the General Purpose Zone, rather than as Subzones. All activated Subzones of FTZ No. 134 will be operated pursuant to Operator Agreements between the Subzone operators and the Chattanooga Chamber Foundation.

**TRANSSHIPMENT MERCHANDISE:**
