

IMPORTANT INFORMATION ABOUT ZONE SCHEDULES

This zone schedule is being made available pursuant to 15 CFR 400.44(e), which states: “The Board shall make copies of zone schedules available on its Web site.”

Availability of this zone schedule on the FTZ Board’s website does not imply that the FTZ Board has approved any rate/charge, policy or other content of this zone schedule. In particular, while the FTZ Board staff intends to conduct spot checks over time, zone schedules are not reviewed for compliance with the public utility requirement (19 U.S.C. 81n, 15 CFR 400.42) prior to making the zone schedules available via the Board’s website.

Pursuant to 15 CFR 400.44(b)(4), a grantee may not assess any specific rate or charge for which the amount – or formula for calculating the amount – does not appear in the zone schedule that the grantee has submitted to the FTZ Board.

Complaints about a grantee’s compliance with statutory and regulatory requirements related to public utility and uniform treatment – including rate or charge amounts/formulas, a grantee assessing a rate or charge amount/formula that does not appear in its zone schedule, and a grantee not affording uniform treatment under like conditions – may be presented to the FTZ Board under 15 CFR 400.45 (which also allows for complaints to be made on a confidential basis, if necessary).

Questions or concerns may be addressed to the FTZ Board staff at (202) 482-2862 or ftz@trade.gov.

DESCRIPTION OF FOREIGN-TRADE ZONE NO. 59

Pursuant to a Grant issued by the Foreign-Trade Zones Board, Washington D.C., as Board Order No. 163 on August 27, 1980, the Lincoln Foreign-Trade Zone, Inc., under provisions of the Foreign-Trade Zones Act (19 U.S.C. 81a-81u), Foreign-Trade Zone No. 59, has issued the following Zone Schedule on rules, regulations, rates, and charges. The Lincoln Foreign-Trade Zone, Inc. submitted an Alternative Site Framework Application, which was officially filed by the Foreign-Trade Zones Board as 33-2011 on March 14, 2011. The Application was approved pursuant to Board Order No. 1783 on September 30, 2011. All new submissions will be done under the ASF.

Foreign-Trade Zone No. 59, which is operated as a public utility under Foreign-Trade Zones Board Regulations, has offices located at 1128 Lincoln Mall, Suite 100, Lincoln, NE 68508. The zone has adequate access to electric power, water, waste disposal, communications, and access to all modes of transportation. The buildings are equipped to provide private lease storage, manipulation, manufacturing, and office space.

The zone has been expanded pursuant to Board Order Nos. 646.
The Zone consists of the following site:

Site Number	Site Name and Address	Acreage
2	Lincoln Airpark North Industrial Park 2400 West Adams Street Lincoln, NE (Lancaster County)	372 acres

INTERNAL RULES/REGULATIONS AND POLICIES FOR THE ZONE

SECTION I - DEFINITION OF TERMS

Act—The Foreign-Trade Zones Act of June 18, 1934 (48 Stat. 998 - 1003; 19 U.S.C. 81a-81u), as amended by Public Law 397, 73rd Congress, approved June 18, 1950. (15 C.F.R. § 400.2(a)).

Alteration—A change in the boundaries of a Foreign-Trade Zones Board approved and designated Zone or Subzone; designation of a separate Site of an already-activated Zone or Subzone with the same Zone Operator at the same port; or the relocation within a Foreign-Trade Zones Board approved and designated area of an already-activated Site with the same Zone Operator. The Operator must make a written application to the local Port Director of U.S. Customs for approval of an alteration of an activated area, as it must be checked by Customs through its security survey to ensure the security suitability and fitness of the area for receipt of merchandise in zone status.

Alternative Site Framework (ASF) means a three-part application that transforms a general-purpose zone by creating a service area (Lancaster, Otoe, and Seward Counties) where a subzone or “usage-driven” site can be established in thirty (30) days or a traditional “magnet” industrial park site can be established in six (6) to ten (10) months if certain criteria are met.

Antidumping/Countervailing Duty—FTZ Board Regulations require that any merchandise admitted to a zone that is subject to an AD/CVD Order must be placed in privileged foreign status. (15 C.F.R. § 400.14(e)(1)).

Board—The Board means the Foreign-Trade Zones Board created by the Act to carry out the provisions thereof. The Foreign-Trade Zones Board shall consist of the Secretary of the Department of Commerce, who shall be the chairman, and the Secretary of the Treasury. (15 C.F.R. § 400.2(d)).

Customs Territory—The territory of the United States in which the general tariff law of the United States applies but which is not included in any Foreign-Trade Zone.

Domestic Merchandise—Domestic sourced or foreign sourced previously duty paid merchandise. See Status of Merchandise herein.

Foreign Merchandise—Imported merchandise that has not been properly released from U.S. Customs custody in the Customs territory of the United States. See Status of Merchandise herein.

Grantee—The Grantee of Foreign-Trade Zone No. 59 is the Lincoln Foreign-Trade Zone, Inc., an organization to which the privilege of establishing, operating, and maintaining a foreign-trade zone has been granted by the Foreign Trade Zone Board.

Harmonized Tariff Schedule of the U.S. (HTSUS) Number—The ten-digit number used to identify all imported and exported merchandise. The complete text is available from the U.S. International Trade Commission on its website.

Interim Production Approval- Existing zone site and subzone may secure interim production approval with Customs concurrence and approval by the Foreign-Trade Zones Board. This does not require the entire four (4) months that a normal Production Notification Application requires. However, the Customs letter must indicate that the Operator is activated or could be activated soon.

Magnet Site means sites intended to attract multiple potential FTZ operators/users. Site 2 is a magnet site.

Manipulation—Means breaking up, repacking, assembling, distributing, sorting, grading, cleaning, mixing with foreign or domestic merchandise, or other processing which does not constitute a manufacture.

Manufacturing— This is the old term used by the Foreign-Trade Zones Board for activity involving the substantial transformation of a foreign article resulting in a new and different article having a different name, character, use, and HTS classification. It is now referred to as production. Authority for such activity in a zone must be secured from the Foreign-Trade Zones Board and authorized on a CBPF 216 by the U.S. Customs.

Merchandise—Merchandise includes goods, wares, and chattels of every description except prohibited merchandise. (Building materials, production equipment, and supplies for use in operation of a zone may not be considered "merchandise.")

OFIS- This is the Online FTZ Information System that includes information on each zone. It can be accessed through the FTZ Board web site. All annual reports are now filed electronically through OFIS.

Operating Agreement—The agreement between the Zone Operator and the Zone User, or the Zone Grantee and the Zone Operator describing rights, responsibilities, and financial considerations.

Port Director, U.S. Customs—The Port Director of U.S. Customs located in Omaha, Nebraska, or his representative.

Production- This means traditional manufacturing activity and “kitting” activity where the new HTSUS classification applies to the finished product. The Foreign-Trade Zones Board uses this term to cover both manufacturing and processing activity.

Prohibited Merchandise—Merchandise, the importation of which is prohibited by law on grounds of public policy or morals, or any merchandise that is excluded from a zone by order of the Foreign-Trade Zones Board. Books urging treason or insurrection

against the U.S., obscene pictures, and lottery tickets are examples of prohibited merchandise. Also, certain types of operations involving the following merchandise are prohibited: Tobacco, cigars, cigarettes and cigarette papers and tubes (26 U.S.C. 5701-5706); Firearms (26 U.S.C. 4181-4182/5811); Distilled spirits, alcohol, wine and beer (26 U.S.C. 5001-5008/5010); Sugar (26 U.S.C. 4501-4503); Watch movements (19 U.S.C. 1367-1368); Bicycle parts were prohibited for a limited time period (19 U.S.C. 81b(c)) until December 31, 1992; and retail sales in a zone (19 U.S.C. 81 (o)(d) & CR 146.14).

Regulations—All operations within the foreign-trade zone are subject to the Foreign-Trade Zones Board Regulations, 15 C.F.R. Part 400; and U.S. Customs Regulations, 19 C.F.R. Part 146. Imports and exports may also be governed by the Regulations or Guidelines of other Federal Agencies. All products to be admitted to a foreign-trade zone must be reviewed for potential compliance issues.

Restricted Merchandise/Operations—Merchandise which may not be authorized for delivery from Customs custody without a special permit, or a waiver thereof, by an agency of the U.S. Government. Also, the Foreign-Trade Zones Board and U.S. Customs have restricted certain operations in the past involving the following products: steel, apparel/textiles, television tubes, auto parts, milk, and sugar, orange juice, printers ink, alcohol/gasohol, oil refining, tires, chain saws, silicon metals, and golf carts. The restrictions may vary on a case-by-case basis.

Service Area means the area including Lancaster, Otoe, and Seward Counties, where subzones/usage-driven or magnet sites can be established under ASF rules.

Subzone—A special purpose zone established as part of a zone project for a limited purpose that cannot be accommodated within an existing zone. Foreign merchandise may be admitted to the area without the payment of U.S. Customs duties and taxes or the imposition of U.S. quotas; domestic merchandise is allowed in the area. No U.S. Customs duties, taxes, or quotas apply if the merchandise is exported; U.S. Customs duties, taxes and quotas are applicable if the merchandise is imported into U.S. Customs territory either on the basis of the imported materials or the finished product depending on the zone status designation. For new subzones if a company wishes to have production authority it must request approval of a Production Notification Application which can require four (4) months unless U.S. Customs will support an interim approval. A usage-driven site may also be called a subzone if requested during the Application process.

Sunset Provision—Magnet sites have a rolling five (5) year sunset provision during which at least a portion of the magnet site must be activated, while a usage-driven site must demonstrate actual zone activity within three (3) years or lose zone status.

United States—The fifty States, the District of Columbia, and Puerto Rico that constitute the Customs territory of the U.S. The term "United States" includes all territories and possessions of the United States, except the Virgin Islands, American Samoa, Wake Island, Midway Islands, Kingman Reef, and the Island of Guam, which are not considered part of U.S. Customs territory.

Usage-Driven Site means sites designated to meet a specific operator/user's present need for FTZ designation; usage-driven sites cannot be used by another entity.

Zone Operator—The foreign-trade zone may be managed by the Grantee, a firm that oversees one or multiple zone users, or each firm may be its own foreign-trade Zone Operator. For the purposes of this Schedule, the term Zone Operator shall apply to both general-purpose zones and subzones. The zone or subzone may be an organization, corporation, partnership, or person that operates under the terms of an agreement with the Zone Grantee. There may also be multiple Zone Operators operating under the terms of agreement with the Zone Grantee.

Zone User—A person or firm using a zone for storage, handling, or processing of merchandise. The Zone Operator may authorize a Zone User to maintain its individual inventory control and recordkeeping systems and procedures manual; however, the Zone Operator will remain responsible to Customs and liable under its bond for supervision, defects in, or failures of the systems unless the Zone User posts its own FTZ Operator's Bond and becomes a Zone Operator.

Zone Year—Each Zone Operator may choose its own zone year. December 31 is the year-end for Foreign-Trade Zones Board Annual Report purposes.

SECTION II - OVERVIEW OF FOREIGN-TRADE ZONES

Foreign-trade zones (zones) are restricted-access sites in or near ports of entry, which are licensed by the Foreign-Trade Zones Board and operated under the supervision of U.S. Customs (see, 19 C.F.R. Part 146). Authority for establishing these facilities is granted to qualified corporations. Applications submitted to the Foreign-Trade Zones Board for grants of authority must show the need for zone services and a workable plan that includes suitable facilities and financing.

Zones are operated under public utility principles. Zone Grantees usually contract with private firms to operate facilities and provide services to zone users. Zones have as their public policy objective the creation and maintenance of employment through the encouragement of operations in the United States that, for Customs reasons, might otherwise have been carried on abroad. The objective is furthered particularly when zones assist exporters and re-exporters, and usually when goods arrive from abroad in an unfinished condition for processing here rather than overseas.

Foreign and domestic merchandise may be moved into zones for operations not otherwise prohibited by law involving storage, exhibition, assembly, production, or other processing. The usual formal Customs entry procedure and payment of duties is not required on the foreign merchandise unless and until it enters Customs territory for domestic consumption, in which case the importer ordinarily has a choice of paying duties either on the original foreign material or the finished product. Quota restrictions do not normally apply to foreign goods stored in zones, but the Foreign-Trade Zones Board can limit or deny zone use in specific cases on public interest grounds. Domestic goods moved into a zone for export may be considered exported upon entering the zone for purposes of excise tax rebates and drawback. "Subzones" are a special-purpose type of ancillary zone authorized by the Foreign-Trade Zones Board, through grantees of public zones, for operations by individual firms that cannot be accommodated within an existing zone when it can be demonstrated that the activity will result in a significant public benefit and is in the public interest. Foreign merchandise and domestic merchandise for export in a zone are exempt from state and local ad valorem taxes. (15 C.F.R. § 400.1(c)).

More detailed information is contained in the Foreign-Trade Zones Act - 19 U.S.C. 81a-u; Foreign-Trade Zones Board Regulations - 15 C.F.R. Part 400; and U.S. Customs Regulations - 19 C.F.R. Part 146.

SECTION III - APPLICATION OF RULES, REGULATIONS AND RATES

Section III.0 – Application and Interpretation of Foreign-Trade Zone No. 59, Zone Schedule

The rules, regulations and rates of this Zone Schedule shall apply at Foreign-Trade Zone No. 59, its subzones, magnet sites, usage-driven sites, and annexes unless otherwise provided for. The Zone Grantee/Operator, shall be the sole judge to interpret and determine the applicability of any of the rates, regulations or services provided for in this Zone Schedule. However, any matter involving interpretation or action by U.S. Customs or other agency of the U.S. Government will be determined by the Port Director of Customs, with the concurrence of the Foreign-Trade Zones Board. Where applicable, the Foreign-Trade Zones Board and U.S. Customs Regulations shall prevail should any conflict arise with this schedule.

Section III.1 – Regulations - Foreign-Trade Zones Board

Foreign-Trade Zone No. 59 is regulated by the Foreign-Trade Zones Board, Washington, D.C., special regulations as defined in the U.S. Code of Federal Regulations, Title 15, Chapter IV, Part 400-Regulations of the Foreign-Trade Zones Board.

Section III.2 – Regulations - U.S. Customs and Border Protection

Foreign-Trade Zone No. 59 is subject to special U.S. Customs regulations as defined in U.S. Code of Federal Regulations, Title 19, Chapter I, Part 146-Foreign-Trade Zones.

Section III.3 – Public Utility Standards

Pursuant to Foreign-Trade Zones Board Regulation, the zone must be operated as a public utility. All rates and charges for all services or privileges within the zone shall be fair and reasonable, and the Zone Grantee and Zone Operator(s) shall afford to all who may apply for the use of the zone and its facilities and appurtenances uniform treatment under like conditions, subject to such treaties or commercial conventions as are now in force or may hereafter be made from time to time by the United States with foreign governments regardless of whether a zone participant has processed any zone related product or engaged a particular service provider. (15 C.F.R. § 400.43). The General-Purpose Zone contains buildings available for sale or lease, and open land suitable for construction, to ensure that the reasonable zone needs of the business community are being met. The buildings are equipped to provide storage, manipulation, manufacturing, and other office space for individual companies to act as their own Operator within their own facility. Additionally, there are buildings available, or land available for construction, that would accommodate a third-party provider public warehouse building or buildings, making zone services available to those companies who did not wish to lease or purchase their own building, or physically handle their own

merchandise while within the foreign-trade zone site. In this manner, the Grantee provides the community the opportunity for a wide range of firms to be accommodated under public utility principles.

Section III.4 - Uniform Treatment Standard

Any company that prepares an application to be filed with the Foreign-Trade Zones Board shall be sponsored by this Grantee organization unless that company is in a business that will harm other domestic companies, includes information in its application that is detrimental to the local community, or is not deemed to be in the general public interest.

SECTION IV - OPERATION OF ZONE

Section IV.0–Activation

Pursuant to regulations of the U.S. Customs, all or any portion of the zone approved by the Foreign-Trade Zones Board may be approved by the Zone Grantee and the Port Director of Customs for foreign-trade zone operations and for the admission, handling, and shipment for import or export of merchandise in zone status. All procedures of U.S. Customs shall be followed. (19 C.F.R. § 146.6).

Section IV.1–Deactivation

A Zone Operator may file a request with the Customs Port Director to deactivate all or a portion of an existing activated zone or subzone and shall cease to admit merchandise into the zone site in zone status. Final action and disposition of the merchandise must be made with the concurrence of the Customs Port Director.

Section IV.2–Exclusion from Zone of Goods or Process of Treatment/Grant Restrictions

When it shall be reported to the Foreign-Trade Zones Board that any goods or process of treatment is detrimental to the public interest, health, or safety, the Foreign-Trade Zones Board shall cause such investigation to be made, as it may deem necessary. No operation or process of treatment will be permitted in the zone that in the judgment of the Foreign-Trade Zones Board or the Zone Operator is detrimental to the public interest, health, or safety. (15 C.F.R. § 400.13(a)(8)(b)). Normally, the Foreign-Trade Zones Board issues a Grant Restriction by means of a Board Order governing such activity. Grant Restrictions are restrictions or conditions placed in a Grant or other approval by the Foreign-Trade Zones Board that may limit the zone status allowed, the kind of operation or the merchandise in a zone, the entry of merchandise into the commerce, the life of the Grant, or the amount of acreage allowed to be activated. See also the definition of Restricted Merchandise/Operations.

Section IV.3–Grant Sale/Conveyance, Transfer, Assignment, Etc.

The Foreign-Trade Zone Grant of Authority may not be sold, conveyed, transferred, set over, or assigned (FTZ Act, Section 17; 19 U.S.C. 81q). (15 C.F.R. § 400.13(a)(7)). Application may be made to the Foreign-Trade Zones Board to reissue a Grant under certain conditions.

Section IV.4–Independent Contractor Status

Zone Grantee, Zone Administrator, Zone Operator, and any future Zone User are not and shall not be considered as joint venturers, partners, or agents of each other, and none shall have the power to bind or obligate the other except as set forth in any written agreements. Zone Grantee, Zone Operator, and any future Zone User agree not

to represent to anyone that they are agents of one another or have any authority to act on behalf of one another except as set forth in any written agreements.

Section IV.5–Lapse/Sunset Provision

The grant of authority for every general-purpose zone or subzone may lapse if it is not activated and in operation within five years of the initial Foreign-Trade Zones Board Order issued after November 7, 1991. Detailed provisions apply. If a portion of any zone site is not activated within five (5) years of the establishment of the zone site, Grantee has the right to transfer zone status to another parcel of land adjacent to the Customs Port of Entry. (15 C.F.R. § 400.13(a)(4)). All zone operators in general-purpose zone sites are subject to sunset provisions. A subzone/usage-driven site operator must secure activation approval and must demonstrate zone activity within three (3) years or lose zone status. If an operator is located in a magnet site, the operator or another operator in the magnet site must activate a portion of the magnet site within five (5) years. Failure to meet the sunset provisions will result in automatic deletion of zone status. The Lincoln Foreign-Trade Zone, Inc. as Grantee will not be held liable for any difficulties this may create for an operator.

Section IV.6–Manipulation, Manufacture, Exhibition of Merchandise

In general, merchandise lawfully brought into a zone may, in accordance with these and other regulations made under the provisions of the Act, be stored, sold, exhibited, broken up, repacked, assembled, distributed, sorted, graded, cleaned, mixed with foreign and domestic merchandise, or otherwise manipulated or be manufactured.

(a) Permission for any manipulation, manufacture, destruction, or exhibition in a zone shall be obtained from the Port Director of Customs subject to such application and procedure prescribed by the Secretary of the Treasury for the protection of the revenue by means of a CBPF 216.

(b) For production (manufacturing/processing), a second request must be made in advance to the Foreign-Trade Zones Board for production operations. The Foreign-Trade Zones Board defines production as any change in HTS classification. The Foreign-Trade Zones Board must approve all production operations. This includes certain “kitting” operations where there may be a change in HTSUS classification. Any new production operation beyond the scope approved in the Grant of Authority must be authorized by the Foreign-Trade Zones Board. See generally 15 C.F.R. 400.14(a). In a general-purpose zone, expedited action under Interim Production Notification authority can be secured. In existing general-purpose zone sites and subzones, Interim Production Notification authority may be secured in less than one hundred and twenty (120) days if U.S. Customs and Border Protection will provide a concurrence letter to the Foreign-Trade Zones Board.

(c) In the event of the denial of any application by the Port Director for any reason, the applicant, the Zone Grantee, or the Zone Operator of the zone may appeal the adverse ruling. If any revenue protection considerations are involved in such an application, the Foreign-Trade Zones Board shall be guided by the determinations of the Secretary of the Treasury.

Section IV.7—Merchandise Permitted in a Zone

Foreign and domestic merchandise of every description, except such as is prohibited by law, may without being subject to Customs laws of the United States, except as otherwise provided in the Foreign Trade Zones Act and the regulations made thereunder, be admitted into a zone.

(a) Merchandise that is specifically and absolutely prohibited by law shall not be admitted into a zone. Any merchandise so prohibited by law that is found within a zone shall be disposed of in the manner provided for in the laws and regulations applicable to such merchandise. A distinction is made between (1) merchandise which is specifically and absolutely prohibited by law on the grounds of policy or morals, such as immoral or subversive literature, obscene articles, or lottery matter, and (2) merchandise which is subject to conditional prohibition only, for example, articles which are subject to permits or licenses for the protection of economic or national security or which may be reconditioned to bring them into compliance with the laws administered by various Federal agencies. Port Directors of Customs are required to exclude the first class of articles and may not permit them to be admitted to a zone if they are aware of their prohibited status, except that the Port Director may permit the temporary deposit of any such merchandise in the zone pending final determination of its status. The transfer of articles of the second class to a zone is subject to any requirements of the Federal agency concerned. See 19 C.F.R. § 146.31(a) and (b).

There is no prohibition against placing over-quota merchandise in a zone pending its right to transfer to Customs territory pursuant to the applicable quota provisions.

(b) The application for the admission of merchandise into a zone shall be approved or disapproved by the Port Director of Customs as the representative of the Foreign-Trade Zones Board on a CBPF 214.

(c) For definitions of Prohibited and Restricted Merchandise, see Section I.

Section IV.8—Retail Trade Within Zone

No retail trade shall be conducted within a zone except under permits issued by the Foreign-Trade Zones Board. Duty paid and domestic merchandise may be sold in a foreign-trade zone under certain circumstances.

Section IV.9–Scope of Authority

Foreign-Trade Zone No. 59 is authorized by Foreign-Trade Zone Board Order Nos. 646 to undertake the activities set out therein. The Foreign-Trade Zones Board must authorize all production activity that results in a change in the imported material's Harmonized Tariff Schedule of the United States classification. This includes “kitting” operations where finished products are packaged together for sale. Any change in imported materials and finished products for such activity must also be authorized to only undertake those activities approved by the Foreign-Trade Zones Board. Zone Operator/User shall promptly notify the Zone Grantee of any activity requiring Foreign-Trade Zones Board notice and authorization.

Section IV.10–Sponsor of New Zone or Subzone

The Zone Grantee may in its sole discretion decide to sponsor a new zone or subzone project and its Application to the Foreign-Trade Zones Board. In order to make its determination, the interested party must submit, in letter form to the Grantee, sufficient data in summary form as required in an Application to the Foreign-Trade Zones Board. (15 C.F.R. § 400.14(a), 400.22, 400.25, 400.37). If the Zone Grantee decides to sponsor the proposed project, the Application must be prepared at the cost of the applicant.

Section IV.11–Status of Merchandise in a Zone

For the purposes of the Act and the regulations relating to this Section, all merchandise within a zone, except merchandise in transit through a zone as provided in U.S. Customs Regulations, and except merchandise temporarily transferred to a zone for manipulation under Customs supervision pursuant to Section 562, Tariff Act of 1930, as amended, shall be given a zone status on a CBPF 214 document. Any changes to the zone status must be made on a CBPF 214 and approved by the U.S. Customs. For definitions see Section I.

Section IV.12–Subsequent Importation of Zone Merchandise

Articles produced in a zone and exported from there shall, on subsequent importation into the Customs territory of the United States, be subject to the import laws applicable to like articles produced in a foreign country, except that articles produced or manufactured in a zone exclusively with the use of domestic merchandise, the identity of which has been maintained in accordance with the Second Proviso of Section 3 of the Act, as amended, may, on such importation, be entered as American goods returned. (19 C.F.R. § 146.67(e)).

Section IV.13–Termination-Accrued Obligations/Survival

All Zone Operator/Users will specifically acknowledge and agree that, upon termination or expiration of tenancy in the foreign-trade zone for any reason whatsoever, Zone Operator/User shall not be released or relieved from fulfilling any and all of its obligations or duties which arose or accrued during the term of its zone usage, and Zone Operator/Users will specifically represent and warrant to Zone Grantee and Zone Administrator that upon termination or expiration of its zone usage for any reason whatsoever, Zone Operator/User shall completely perform and fulfill any and all of its obligations or duties which arose or accrued during the term of its zone use including the immediate preparation and filing of all necessary reports with the Grantee and the U.S. Customs. Specifically, the Zone Operator/User's indemnity obligations, bond obligations, and record and record retention obligations shall survive the termination or expiration of any Agreement and/or zone activity for any such reason.

Section IV.14–Termination-Conviction/Abandonment

Foreign-Trade Zone usage may be terminated if Zone Operator/User shall be convicted under any law of a felony as defined by such law; if the Foreign-Trade Zones Board or U.S. Customs should suspend or terminate Zone Operator/User or the activated status of the zone; or if the Zone Operator/User shall voluntarily abandon, desert, or vacate the premises or discontinue its operations. Zone Operator/User shall immediately provide all records and reports for Zone Grantee, the Foreign-Trade Zones Board, and the U.S. Customs.

SECTION V - GENERAL RULES AND REGULATIONS

Section V.0–Agreements

All firms using the services of a Foreign-Trade Zone Operator must enter into an operating agreement with the Operator. All Foreign-Trade Zone or Subzone Operators must enter into an agreement with the Zone Grantee. If there is a conflict between the operating agreement and this Schedule, the agreement will prevail.

Section V.1–Communication, Audits, Inspections and Requests for Information

Zone Operator/User shall inform Zone Grantee of any substantive written or oral communication with the Foreign-Trade Zones Board with respect to zone activity. Zone Grantee must make all written submissions to the Foreign-Trade Zones Board with respect to Foreign-Trade Zone activity.

Section V.2–Confidential Relationship

All foreign-trade zone documentation contains confidential business information that may not be copied or disclosed without the express written permission of the particular party in interest. All information shall be kept confidential except that which is required to be made public by the Foreign-Trade Zones Board or U.S. Customs. The Zone Operator is specifically required by 19 C.F.R. 146.4(d)(3) to maintain all transaction records confidential.
