This zone schedule is being made available pursuant to 15 CFR 400.44(e), which states: “The Board shall make copies of zone schedules available on its Web site.”

Availability of this zone schedule on the FTZ Board’s website does not imply that the FTZ Board has approved any rate/charge, policy or other content of this zone schedule. In particular, while the FTZ Board staff intends to conduct spot checks over time, zone schedules are not reviewed for compliance with the public utility requirement (19 U.S.C. 81n, 15 CFR 400.42) prior to making the zone schedules available via the Board’s website.

**ANCHORAGE FOREIGN-TRADE ZONE, FTZ NO. 160 ZONE SCHEDULE
EFFECTIVE JANUARY 1, 2014**

GENERAL BACKGROUND OF FTZ NO. 160

Foreign-Trade Zones in General:

Foreign-trade zones (FTZs) were created by the Foreign-Trade Zones Act of 1934 (the FTZ Act) for the purpose of expediting and encouraging foreign commerce. Changes to the FTZ Act in 1950 that permitted manufacturing and exhibiting in FTZs have broadened the objectives of the program. FTZs are secured areas under U.S. Customs and Border Protection (CBP) supervision that are considered outside the customs territory of the United States. Merchandise may be moved into an FTZ for storage, exhibition, manufacture, or other operations not otherwise prohibited by law. Customs duties on foreign merchandise are not collected until the merchandise is entered into the U.S. Customs territory.

History of the Anchorage Foreign-Trade Zone, FTZ No. 160:

The Grant of Authority establishing the Anchorage Foreign-Trade Zone, (FTZ No. 160) was issued by the Foreign-Trade Zones Board (FTZB) to the Port of Anchorage on July 28, 1989 (Board Order No. 437). There have been two Administrative Actions that have altered the boundaries of the General Purpose Zone Project. There has been one (1) subzone authorized by the FTZB as part of the FTZ No. 160 Zone Project. Board Order 1149 dated March 15, 2001 established Subzone 160A for Tesoro Alaska Company (presently activated). The Grantee filed an application to reorganize FTZ No. 160 under the Alternative Zone Framework which was docketed by the FTZB on September 19, 2013 (Docket No. B-87-2013). The Service Area for FTZ No. 160 will include all of the Municipality of Anchorage. The 7 General Purpose Sites listed below will become the Magnet Sites.

ZONE SCHEDULE
PAGE 13 OF 16

Admission of Merchandise:

All merchandise will be recorded in a receiving report or document using a zone lot number or unique identifier. All merchandise, except domestic status merchandise for which no permit for admission is required must be traceable to a CBP Form 214 and accompanying documentation. Quantities received will be reconciled to a receiving report or document such as an invoice with any discrepancy reported to the Port Director. The receiving report or document is required to provide sufficient information to identify the merchandise and distinguish it from other merchandise. Merchandise received will be accurately recorded in the inventory system records from the receiving report or document using the zone lot number or unique identifier for traceability.

Accountability for merchandise:

A zone lot number or unique identifier will be used to identify and trace merchandise. Fungible merchandise may be identified by an inventory method authorized by CBP, which must be consistently applied, such as First-In-First-Out (FIFO) and using a unique identifier. The inventory records will specify by zone lot number, or unique identifier (a) the location of merchandise; (b) zone status; (c) cost or value, except where the Operator's or user's financial records maintain cost or value and the records are made available for CBP review; (d) beginning balance, cumulative receipts and removals, adjustments, and current balance by date and quantity; (e) destruction of merchandise; and (f) scrap, waste, and by-products.

Physical inventories:

The Operator is required to take at least an annual physical inventory of all merchandise in the FTZ (unless continuous cycle counts are taken as part of an ongoing inventory control program) with prior notification of the date(s) given to CBP for any supervision of the inventory deemed necessary. The Operator will notify the Port Director of any discrepancies.

Annual Reconciliation:

The Operator will prepare a reconciliation report within 90 days after the end of the zone/subzone year unless the Port Director authorizes an extension for reasonable cause. The Operator will retain the annual reconciliation report for a spot check or audit by CBP. The report will contain a description of merchandise for each zone lot or unique identifier, zone status, quantity on hand at the beginning of the year, cumulative receipts and transfer (by unit), quantity on hand at the end of the year, and cumulative positive and negative adjustments (by unit) made during the year. The Operator will submit to the Port Director within 10 working days after the preparation of the annual reconciliation report, a letter signed by the operator certifying that the annual reconciliation has been prepared, is available for CBP review, and is accurate. The certification letter is required to contain the name and street address of the Operator, where the required records are available for

Customs review; and the name, title, and telephone number of the person having custody of the records.

Annual system review:

The Operator will perform an annual internal review of the inventory control and recordkeeping system and report to the Port Director any deficiency discovered and corrective action taken.

Shortages and overages:

The Operator will report, in writing, to the Port Director upon identification, as such, of any (a) theft or suspected theft of merchandise; (b) merchandise not properly admitted to the zone; or (c) shortage of one percent or more of the quantity of merchandise in a lot or covered by a unique identifier, if the missing merchandise would have been subject to duties and taxes of \$100 or more upon entry into the customs territory. The operator will record upon identification all shortages and overages, whether or not they are required to be reported to the Port Director at that time, in its inventory control and recordkeeping system. The operator will record all shortages and overages as required in the annual reconciliation report. The person with the right to make entry is required to file, within 5 days after identification of an overage, an application for admission of the merchandise to the zone on CBP Form 214 or file a Customs entry for the merchandise. If a CBP Form 214 or a Customs entry is not timely filed, and the Port Director has not granted an extension of the time provided, the merchandise will be sent to general order.

Receipt of merchandise:

Merchandise will be admitted into FTZ No. 160 only upon application on a uniquely and sequentially numbered CBP Form 214 ("Application for Foreign Trade Zone Admission and/or Status Designation") and the issuance of a permit by the Port Director. Exceptions to the CBP Form 214 requirement are for merchandise temporarily deposited, transiting merchandise, or domestic merchandise admitted without permit.

An Operator may qualify for direct delivery if its operations are predictable and stable over a long term and are relatively fixed in variety; merchandise is not restricted or of a type requiring Customs examination before or on its arrival, and CBP has no reason to believe the merchandise will be inaccurately described in admission documents; and when the Operator is the owner or purchaser of the merchandise.

Manipulation of merchandise:

Prior to any action the Operator is required to file with the Port Director an application (or blanket application) on CBP Form 216 for permission to manipulate, manufacture, exhibit, or destroy merchandise in the zone. After CBP approves the

application (or blanket application), the Operator will retain in his recordkeeping system the approved application. The Port Director is authorized to approve a blanket application for period of up to one year for a continuous or repetitive operation.
